

RESTRICTED AREA

**SAFE
&
COLLABORATIVE**

A small, black, square-shaped autonomous mobile robot (AMR) is moving through a warehouse aisle. It is carrying a large blue plastic crate on its top deck. The robot has a black base with white lights and a small display screen. The warehouse floor is concrete with yellow and red safety markings. In the background, there are metal shelving units and a person walking. A graphic overlay with the text "SAFE & COLLABORATIVE" is positioned to the right of the robot.
